

## PROFESSIONAL DEVELOPMENT COURSES

# USING SPSS FOR STATISTICAL DATA ANALYSIS

The workshop will introduce participants to practical data analysis using the statistical software package SPSS (Statistical Package for the Social Sciences; IBM SPSS, version 20, Chicago, Illinois). SPSS is a user friendly package which allows statistical analysis without anguish.

**The main focus is on four practical questions:**

- (1) How to describe and summarize my data?
- (2) What statistical test is needed for a specific research question?
- (3) How do I perform this procedure in SPSS?
- (4) How do I interpret and present my results?

**Includes:** One-year educational graduate **license for SPSS** and **Guide to SPSS**

---

**Where:** Education Centre - Mater Hospital Pimlico, Fulham Rd, Townsville

**When:** Sat 27th and Sun 28th October 2012

**Time:** 9:00 am to 5:00 pm

**Includes:** Morning teas, lunches & afternoon teas

**Costs:** AU\$850 full fee; AU\$700 fulltime JCU student or already have licence

**Enrolment deadline:** 19<sup>th</sup> October 2012

**Workshop facilitators:** Dr Petra Buettner and Dr Monika Buhner-Skinner.

---

*We ask participants to **bring their own laptop** (ideally with the SPSS licence installed). Participants will need to provide a postal address so we can send SPSS licences in advance!*

Participants can receive either a Certificate of Attendance or a Certificate of Achievement (successful assignment completion) in order to apply for **CPD points** with their discipline body.
